HOD DESK

Department of Electronics and Telecommunication Engineering commits to work towards developing Engineers with rich blend of competent, technical, managerial and social skills and contribute to nation building.

Department takes the initiative to improve technical skills, analytical capabilities and verbal communication of students so that they can face the competition in the corporate world confidently.

Our esteemed faculty members continue to make significant contributions to the field. Our students continue to impress with their ingenuity and dedication. We are forging stronger ties with industry leaders to provide our students with hands-on learning experiences and career opportunities.

We take pride in celebrating the accomplishments of our students. Whether it's winning prestigious awards or securing coveted internships, our students continue to excel in their academic and professional pursuits.

Thank you for your unwavering dedication and commitment to our department's mission. Here's to another semester of innovation, collaboration, and success!

“A word after a word after a word is power.”

2-Days Workshop: “Hands-on practice on PCB, design, circuit making idea, loud speaker and amplifier troubleshooting problems.”

Date-29/09/2023 to 30/09/2023:

The importance of a PCB designing workshop cannot be overstated in today's technological landscape.

As an Electronics engineer, here are several key reasons why such a workshop holds significant value: Foundation of Electronics Engineering, Practical Skill Development, Industry Relevance, Innovation and Creativity, Quality Assurance and Reliability, Cross-disciplinary Collaboration and Academic Enhancement.

A PCB designing workshop is essential for individuals looking to enter or advance in the field of electronics engineering. It provides practical skills, industry relevance, and opportunities for innovation and collaboration, ultimately

contributing to personal and professional growth in the ever-evolving world of technology .

So to get students the exposure, department has organized the 2-days workshop on PCB designing under ICT chapter. Mr. Pradeep Nandeshwar, PCB expert, Sakoli has shared his skills with our students. The program was coordinated by Prof. R.V. Sakhre and Prof. Mrs. S. S. Pampttiwar. Hon. Principal Mr. S. P. Lambhade and HOD Prof. A.A. Ali has motivated participants about PCB design & Implementations. During the workshop Prof. D.A. Brahmkar, Prof. R.B. Sathe, Prof. P. H. Mohokar, Prof. P. P. Kotangale and Prof. L. K. Meshram have mentored the students. The program was concluded with vote of thanks by Ms. Maheshwari Kapgate, 1st Year student.

“Yoga Day Celebration”

Date-04/11/2023

Yoga is the union of physical, mental and spiritual aspects of the body. It originated in ancient India and it consists of combining physical postures with breathing techniques with the help of meditation and hence relaxation. According to ancient Indian texts, Yoga can open up all the senses of your body and keep you healthy and fit.

A day off would surely pile up a lot of works including studies and assignments. And in a hectic schedule, it is difficult to take out time for completing the pending work. So a student first needs to be healthy so that he does not miss a day.

The importance of yoga in student's life kicks in here. Yoga consists of basic stretching exercises combined with breathing and meditation; hence yoga helps students to cleanse their body physically and spiritually.

The Yoga expert Mrs. Isapure madam guided the first year students on Yoga day by sharing the importance of Yoga in student life and benefits of Yoga.

Hon. Principal Mr. S. P. Lambhade, addressed the students by sharing the importance of peaceful of mind and how the students can achieve this by applying the knowledge of “Mindfulness”.

“Parents – Alumni Meet 2023-24”

Date-25/01/2024:

Parents play a profoundly influential role in their children's lives, impacting their development, well-being, and future success in numerous ways.

Certainly, parents are crucial stakeholders in educational institutions.

Alumni generate invaluable word-of-mouth among their social and professional networks. By engaging alumni, an institute can continue to benefit from their skills and experience. Alumni are great role models for current students and offer practical support to students as they start their careers.

Department organized the Parents meet every half yearly and Alumni meet a yearly. It helps the department to build a bond between the stakeholders. It also helps the parents to get the update of their ward progress and achievements.

This year Parents meet was a grand event and huge response received from the parents. Parents also shared their valuable inputs for betterment in future.

HOD Prof. A. A. Ali sir addressed the gathering with his helpful words. The meet was graced by the presence of all faculty members from the department.

Expert talk on “ Financial Literacy ” for Final year students

Date-17/02/2024

Government Polytechnic, Sakoli has organized an expert talk on “Financial Literacy”, to make our students aware about the financial crimes and hacks they can face and how they can avoid it.

Financial literacy education helps students develop responsible spending habits and understand the difference between needs and wants. By learning to distinguish between essential expenses and discretionary spending, students are more likely to make prudent choices and avoid unnecessary debt.

Financial expert Mr. Kaware, State Bank of India, Bhandara, as a session expert guided students with the schemes and financial management techniques.

It will definitely help our students.

Hon. Principal Mr. S. P. Lambhade and Head of the department from all disciplines make the session successful with their valuable presence.

The vote of thanks proposed by Prof. S. M. Bante, Lecturer, Mechanical Engg.

“Industrial Visit”

Date- 18/10/2023 and 23/02/2024

To develop Industry Institute interaction with nearby industries, our Principal Mr. S. P. Lambhade, sir always took initiative for field visit by students and faculties.

With keen interest in emerging trends in Electronics and Electrical engineering department took the final year students for Industrial visit.

Industrial exposure helps the students to boost up their confidence in their learnings and implementation in future.

A. Industrial visit at High-way Toll Plaza, Sakoli.

During this visit students get the knowledge about Solar panel and diesel generator.

The visit coordinated by Prof. R. V. Sakhre, Lecturer, Electronics and Telecommunication.

B. Industrial Visit at Power Charging Station Sakoli.

During this visit students get the knowledge about the electric vehicles and how role of an Electronics engineer in such industries.

The visit coordinated by Prof. R. B. Sathe, Lecturer, Electronics and Telecommunication.
